VICENTE PALOMA INSTITUTE

EXPERIENCIA, TALENTO Y COMPROMISO AL CUIDADO DE LA BELLEZA NATURAL
EXPERIENCE, TALENT AND COMPROMISE AT SERVICE OF NATURAL BEAUTY

Las vivencias con su padre, director de un hospital, y su infancia rodeado de profesionales de la salud despertaron en el Dr. Paloma su vocación por la medicina. Descubrió su pasión por la cirugía plástica, cuando ejercía como médico residente en el Hospital Virgen del Camino donde empezó las rotaciones en cirugía maxilofacial, y gracias a la cual, se dio cuenta de su atracción por la piel. Así, decidió iniciarse en la especialidad de cirugía plástica y estética, profesión que le apasiona por ser una de las más emocionantes y complejas que existen.

Aunque sus inicios como cirujano plástico fueron duros, al enfrentarse a la severidad de su jefe, el Dr. José María Serra Renom, catedrático de cirugía estética y reparadora, hoy sólo tiene palabras de agradecimiento y orgullo hacia su persona, por inculcarle los valores del esfuerzo, constancia y exigencia que forman parte de su personalidad.

Dentro de los servicios de cirugía mamaria (aumento, reducción, flacidez, reconstrucción y cirugía correctiva de mamas tuberosas), el Dr. Vicente Paloma ha conseguido posicionarse como referente en mamoplastia de aumento, una de las intervenciones más demandadas por las mujeres. Las claves de este éxito se deben a su alta profesionalidad, la continua investigación, la participación en ponencias y congresos médico-estéticos internacionales, y su exigencia en trabajar al 100% con cada paciente, buscando siempre matrícula de honor.

La incorporación de la tecnología de Crisalix 3D en cirugía mamaria ha aportado un plus en la comunicación con el paciente. Un aspecto fundamental que permite alinear las expectativas de la paciente con el consejo médico para ayudarla a tomar la mejor decisión y conseguir los mejores resultados.

The experiences with his father, director of a hospital, and his childhood surrounded by health professionals, were the influential point of Dr. Paloma for his vocation for medicine. He discovered his passion for plastic surgery, while serving as a medical resident at the Hospital Virgen del Camino, where he began rotations in maxillofacial surgery, and thanks to this, he realized his attraction to the skin. He decided to start a specialization in plastic and cosmetic surgery, a profession that is passionate for being one of the most exciting and complex world.

Although its beginnings were hard, he faced them with the severity of his boss, Dr. José María Serra Renom, professor of aesthetic and reconstructive surgery. Today he only has words of gratitude and pride to this person, for inculcating the values of effort, perseverance and demanding that part of his personality.

Within the services of breast surgery (augmentation, reduction, sagging, reconstruction and corrective surgery tuberous breasts), Dr. Vicente Paloma has positioned itself as a leader in breast augmentation, one of the most requested interventions by women. The key to this success owe to his high professionalism, continuous research, participation in conferences and international congresses, and of course the requirement to work 100% with each patient, always looking for honors.

The incorporation of 3D technology Crisalix in breast surgery has brought a plus in the communication with the patient. It has become a fundamental aspect that allows you to align the expectations of the patient with medical advice to help them make the best decision and get the best results.

Dr Vicente Paloma

Dr. Vicente Paloma's stands out by an exceptional and personalized treatment for the patient. One of the greatest satisfactions of his profession is the opportunity to meet people, learning every day and create a connection for empathy; in addition to improve their life quality. His philosophy is very simple, offer the best to the patient in order to achieve a high degree of satisfaction.

Dr. Paloma belongs to international medical societies, so he can practice the latest techniques in surgery and aesthetic medicine. He is also committed to leading technology as Fraxel laser skincare, VASERlipo®, the latest generation of INDIBA® Deep Beauty and 3D Crisalix, to achieve the aims of excellence in surgery and facilitate the work of the team.

Vicente Paloma Institute has become the first service of plastic and aesthetic surgery and of Catalonia in obtaining the certificate of Health Excellent (SEP), demonstrating excellence in its work system. This commitment to quality has been reinforced by obtaining the ISO 9001:2015 certificate, which recognizes its Quality Management System, resulting in an improvement of its processes and ensuring the quality, safety and reliability of all its activities.
